

Version Release History

2.2 Update

- added option for currency symbol,
- added Affiliate Mode (review wpShopReloaded_features.pdf for more info)
- added optional display options for Product Number ID, Stock on Hand, Shipping info and Tax info
- fixed widget ready sidebar
- fixed the way I get the category slug
- fixed the way I get the page info (ID or slug)
- fixed an issue with PayPal and some orders not showing
- fixed typo with shipping calculation method „by weight“
*Note if you are using a **weight shipping calculation method** you'll need to adjust your custom fields to **item_weight**!*
- Removed the Footer Bookmarks as it annoyed too many people :)
- Added the option to use Drop Downs on the main navigation links
- Added the option to remove the „slide down“ sidebar.
- Re-wrote the entire Documentation!
